Emily Carter
UCLA Executive Vice Chancellor and Provost

Re: UCLA Library Access for Research: Recommendations

Dear Executive Vice Chancellor and Provost Carter,

On behalf of the Executive Board, I am writing about resources and access to the UCLA Library for research.

The Academic Senate recognizes and appreciates the innovative service that the Library has provided to students and faculty throughout the pandemic. We acknowledge the recent and on-going initiatives to make materials available digitally and via pick-up or delivery. However, there is more work to be done to improve scholars' access to research materials at the Library. It is important that adequate resources be utilized so that the Library can more effectively serve learners and scholars going forward as our scholarly activities ramp up to pre-pandemic level and beyond.

At its meeting on February 18, 2021, the Executive Board unanimously endorsed the attached letter from the Council on Research. Members believe the campus will benefit from the allocation of additional resources to the Library to increase its ability to support research activities.

As always, we appreciate the opportunity to opine on the crucial issues facing the campus and look forward to working with you to address them.

Sincerely,

Shane White
Chair, UCLA Academic Senate
