Transportation Program Update & FY2022-23 Fee Consultation

Presented to Academic Senate Faculty Welfare Committee March 15, 2022 by
Lisa Koerbling, Events & Transportation Interim Executive Director, and Dave Wiedeman, Interim Commuter & Parking Services Director
UCLA Shift From Parking to Access

- **1990**: Long Range Development Plan caps on campus-generated trips
- **2002**: Introduction of transit passes (subsidized from parking revenues)
- **2006**: UCLA Bicycle Master Plan
- **2008**: UCLA Climate Action Plan
- **2013**: UCLA Sustainable Transportation Plan
- **2018/19**: UCLA Sustainable Transportation Plan Update
- **2022**: Shift to Hybrid work
- Increased student housing
- Increased use of Bruin Grad Pass for Transit

UCLA Transportation Overview
Benefits of Shifting Emphasis to Access

- Less GHG emissions from commutes
- Less land needed for parking
- Improvement in quality of life
- $ Savings
How Does UCLA Transportation Facilitate Access?

- Campus traffic systems
- Parking management, including reduced fee carpools and discounted daily parking
- Public transit advocacy and subsidization of fares
- Bicycle and pedestrian infrastructure
- BruinBus
- Education and incentive programs
UCLA Mobility Paradigm

Infrastructure
- Bike Lanes
- Traffic Calming
- Scooter Parking/Deployment Areas
- Shared Use Pathways
- LPR Technology

Policy
- GHG Reduction Goals
- Prioritize Active Mobility
- Caps on Vehicle Trips
- Limit Intracampus Vehicle Trips
- Encourage Daily Mode Choice
- Advocacy with Public Agencies

Programs
- Extensive TDM Suite
- Discounted Daily Commuter Parking
- Telecommuting Resources

UCLA Transportation Overview
Employee Mode Shift: Pre-COVID to 2021

2019 (~48% SOV*)

- Of each 100 UCLA employees, 88 of them drove alone to campus each day.
- Which means that 32 of them ‘commuted’ some other way, including those that telecommuted (yellow).
- Also, four of them vanpooled (purple).

2021 (28.3% SOV)

For the ~45% of the total number of employees that were working on campus, 63% of this subset drove alone to campus each day, and 37% used a sustainable mode like bus, bicycle, or walk.

The rest of the UCLA employees, ~55% of them, were working remotely.

*Single-Occupant Vehicle (aka drive-alone)
Parking Program Review
Overview of Parking System

- Approximately 22,000 spaces in 27 structures and 21 lots
  - Approximately 8.3% dedicated patient stalls
  - Approximately 7.7% marked pay station stalls
  - Approximately 84.0% mixed use stalls:
    - Permit, daily/event sales, and pay station
    - About 5% used for visitor sales on an average day
  - Approximately 21% of space used for daily visitors
  - Approximately 79% of space used for permit holders

- 49% of budgeted revenue from daily visitors
  - With the advent of ride hailing, daily visitor revenue is steadily decreasing
- 51% of budgeted revenue from permit sales
  - Introduction of hybrid/remote work has reduced parking demand for standard monthly auto renew permits and helped transition staff and faculty to a daily decision parking model
Managing Revenues/Expenditures to Achieve Financial Sustainability

- Parking revenues support:
  - Parking operations, debt service and major maintenance AND
  - BruinBus, transit subsidies, bicycle programs, carpool subsidies, and campus traffic systems
- Manage financial health over 10 year horizon
  - Maintain sufficient reserves to weather unexpected financial pressures and avoid large fluctuations in permit fees
- Structure student/staff permit fee increases in small, annual increments
- Continually evaluate operations/programs for cost effectiveness
- Understand comparable market
FY 2021-22 & FY 2022-23
Parking Capital Investments

- PS 18 emergency structural repairs
- Continued expansion of Electric Vehicle infrastructure
- Elevator maintenance/upgrades
- Replacing legacy medical parking equipment
- Install cell coverage infrastructure for subterranean garages
