DIVISION OF AGRICULTURE AND
NATURAL RESOURCES

Dear Colleagues:

Attached is the new University of California Research Data Policy for your records and information. This new Policy went through two systemwide reviews on December 17, 2021 for 90-day comment period and on February 15, 2022 for 60-day comment period, respectively. All the relevant and applicable feedback received from these systemwide reviews was incorporated into the attached policy.

Ownership of Research Data by the Regents of the University of California is a long-standing precept originally articulated in Section 020 of the Academic Personnel Manual ([APM-020](#)), or Regulation 4. Specifically, APM-020 Part II, Sec. 5 states that “Notebooks and other original records of the research are the property of the University.” The intent of this new Presidential Policy is to clarify the ownership of and responsibility for research data generated during the course of University research, encourage active data management and sharing practices, and provide guidance with respect to procedures when a University researcher leaves the University.

The new Presidential Policy is effective July 15, 2022, and will be posted online at <http://policy.ucop.edu/>.

Sincerely,

Michael V. Drake, MD
President
