Re: **Systemwide Senate Review: Proposed Amendment to Senate Regulation 630**

Dear Chair Cattelino,

At its meeting on October 26, 2022, the Committee on International Education discussed the Proposed Amendment to Senate Regulation 630.

Members support the comment raised by the Undergraduate Council to clarify the rationale for the proposed requirement that “two quarters or one semester must be during the regular academic year” as opposed to including the summer term.

Thank you for the opportunity to review and comment. If you have any questions, please do not hesitate to contact me via the Committee on International Education analyst, Emily Le, at ele@senate.ucla.edu.
