RE: **UCLA Academic Senate Diversity, Equity and Inclusion (DEI) Plan**

At its meeting on February 6, 2023, members of the Council on Planning and Budget reviewed and discussed the August 29, 2022 letter from the Executive Board.

CPB has advocated for faculty participation in key budget decision-making processes. Through its work at the Budget Model Working Group and the newly established Health Sciences Finances Working Group, the Council continues to be mindful of the need to have a diverse group of members to participate in and lead the discussions of key campus issues. Similarly, members were encouraged to consider and propose colleagues for Senate service.

CPB will continue to discuss and advocate for a diversity of opinions in budget decisions.
