NATHAN BROSTROM EXECUTIVE VICE PRESIDENT AND CHIEF INVESTMENT OFFICER

Re: Resolution on ESG Criteria in Selecting UC Insurance Services

Dear Nathan,

Mary Gauvain

Telephone: (510) 987-0887

Email:mary.gauvain@ucop.edu

At its January 2021 meeting, the Academic Council endorsed the attached resolution from the University Committee on Planning and Budget (UCPB) asking the University to ensure that future RFPs for insurance service vendors include a criterion for eligible institutions to adhere meaningfully to Environment, Social and Governance (ESG) principles.

The resolution follows a July 2020 letter¹ from Council, which asks the University to use banking vendors that adhere to ESG principles and avoid relationships with commercial entities whose practices are inconsistent with UC's Policy on Sustainable Practices and commitment to investing in solutions to the climate crisis.

Thank you for the opportunity to opine. Please do not hesitate to contact me if you have additional questions.

Sincerely,

awain

Mary Gauvain, Chair Academic Council

December 29, 2020

MARY GAUVAIN, CHAIR ACADEMIC COUNCIL

RE: Resolution on Insurance Providers

Dear Mary,

In keeping with the ongoing efforts by the University of California to address the climate emergency and building on a previous statement about banking partners, the University Committee on Planning and Budget (UCPB) has endorsed the attached resolution asking UCOP to include a criterion for eligible institutions to adhere to Environment, Social and Governance (ESG) principles in all future RFPs for insurance vendors.

We urge the Academic Council to support the resolution and forward it to CIO Bachher.

Sincerely,

Sean Malloy, Chair UCPB

ESG Criteria in Selecting UC Insurance Services

In September 2019, the UC declared a climate emergency.¹ UC is already applying Environment, Social and Governance (ESG) principles to its investment portfolio, but a true commitment to address the climate emergency must include a full review of all the ways in which the University may be involved in supporting the fossil fuel industry.² One aspect of such entanglements involves the insurance companies with whom the UC contracts. These companies have varying levels of investment in fossil fuels production as well as providing essential insurance for existing- and under-construction pipelines, refineries, and the wider fossil fuel infrastructure.³ Mirroring a <u>similar</u> request with respect to the UC's banking services last year, UCPB requests that UC's Chief Financial Officer (CFO) issue a Request for Proposals for insurance services that includes a meaningful criterion of adherence to Environment, Social and Governance (ESG) principles.
