Transportation Program Update & FY2022-23 Fee Consultation

Presented to Academic Senate Faculty Welfare Committee March 15, 2022 by
Lisa Koerbling, Events & Transportation Interim Executive Director, and Dave Wiedeman, Interim Commuter & Parking Services Director
UCLA Shift From Parking to Access

- 1990: Long Range Development Plan caps on campus-generated trips
- 2002: Introduction of transit passes (subsidized from parking revenues)
- 2006: UCLA Bicycle Master Plan
- 2008: UCLA Climate Action Plan
- 2013: UCLA Sustainable Transportation Plan
- 2018/19: UCLA Sustainable Transportation Plan Update
- 2022: Parking Master Plan

- Shift to Hybrid work
- Increased student housing
- Increased use of Bruin Grad Pass for Transit
Benefits of Shifting Emphasis to Access

- Less GHG emissions from commutes
- Less land needed for parking
- Improvement in quality of life
- $ Savings
How Does UCLA Transportation Facilitate Access?

- Campus traffic systems
- Parking management, including reduced fee carpools and discounted daily parking
- Public transit advocacy and subsidization of fares
- Bicycle and pedestrian infrastructure
- BruinBus
- Education and incentive programs
UCLA Mobility Paradigm

**Infrastructure**
- Bike Lanes
- Traffic Calming
- Scooter Parking/Deployment Areas
- Shared Use Pathways
- LPR Technology

**Policy**
- GHG Reduction Goals
- Prioritize Active Mobility
- Caps on Vehicle Trips
- Limit Intracampus Vehicle Trips
- Encourage Daily Mode Choice
- Advocacy with Public Agencies

**Programs**
- Extensive TDM Suite
- Discounted Daily Commuter Parking
- Telecommuting Resources

UCLA Transportation Overview

12/15/2020
Employee Mode Shift: Pre-COVID to 2021

2019
(~48% SOV*)

2021
(28.3% SOV)

Of each 100 UCLA employees, 88 of them drove alone to campus each day.
Which means that 82 of them ‘commuted’ some other way, including those that telecommuted (yellow).
Also, four of them vanpooled (purple).

For the ~45% of the total number of employees that were working on campus, 63% of this subset drove alone to campus each day, and 37% used a sustainable mode like bus, bicycle, or walk.

The rest of the UCLA employees, ~35% of them, were working remotely.

*Single-Occupant Vehicle (aka drive-alone)
Parking Program Review
Overview of Parking System

- ≈ 22,000 spaces in 27 structures and 21 lots
  - ≈ 8.3% dedicated patient stalls
  - ≈ 7.7% marked pay station stalls
  - ≈ 84.0% mixed use stalls:
    - Permit, daily/event sales, and pay station
    - About 5% used for visitor sales on an average day
  - ≈ 21% of space used for daily visitors
  - ≈ 79% of space used for permit holders

- 49% of budgeted revenue from daily visitors
  - With the advent of ride hailing, daily visitor revenue is steadily decreasing

- 51% of budgeted revenue from permit sales
  - Introduction of hybrid/remote work has reduced parking demand for standard monthly auto renew permits and helped transition staff and faculty to a daily decision parking model
Managing Revenues/ Expenditures to Achieve Financial Sustainability

- Parking revenues support:
  - Parking operations, debt service and major maintenance AND
  - BruinBus, transit subsidies, bicycle programs, carpool subsidies, and campus traffic systems
- Manage financial health over 10 year horizon
  - Maintain sufficient reserves to weather unexpected financial pressures and avoid large fluctuations in permit fees
- Structure student/staff permit fee increases in small, annual increments
- Continually evaluate operations/programs for cost effectiveness
- Understand comparable market
FY 2021-22 & FY 2022-23
Parking Capital Investments

- PS 18 emergency structural repairs
- Continued expansion of Electric Vehicle infrastructure
- Elevator maintenance/upgrades
- Replacing legacy medical parking equipment
- Install cell coverage infrastructure for subterranean garages
## Projected FY 2022-23
